

TRINITY NEWS

John places the cleansing of the Temple at the beginning of Jesus ministry; the other Gospels place it at the end of his ministry. Regardless, the whip, the driving out of animals and the turning over of tables must have brought deep attention to something Jesus thought was important. Temples come and go; yet Jesus spun a new theme of the temple of our bodies, and particularly his. When I read this, I start to think, what is within me that need the same sort of cleansing? A good sweep to leave enough room for things that really matter. Even if a bit more space is gained to sit with a sense of awe this Lent, no matter where I might be.
