

# TRINITY NEWS

*The* Christ is Risen! God being God, breathing their same air as us, sharing our humanity more than some would care to think. To be human is to be in the image of God. Just like reflection upon the water showing the surroundings of creation. What if we really believed this? I hear you say... I do, we believe. What if a stone is thrown into the water, rippling the image to a fractured reflection? What happens when the sun goes down and the only reflection is deep nothingness? Do we still believe then? Christ has shown us by example, moving from Psalm 22, My God My God, why forsake me, to "Peace be with you".

This is the Good News of today, go and tell the others..... or even better, go and show the others.

Fr. Peter & Deacon Mary gives thanks for your presence and prayers on this Resurrection Day. May all this day be with you now and forever.

Blessings  
Fr. Peter

*Christ  
is Risen!*
