

TRINITY NEWS

There are many sheep in Australia, which has the name of 'riding on the sheep's back' because of the wool, food and work of sheep farming. After birthing; the lambs "bleat" for their mother's. To me they all sound the same, but to the mother she knows the difference, and makes her way through the busy flock to find her own to give care and protection for it. This is the message Jesus is giving in John's Gospel account. The listening care and the action to do what ever it takes to find the beloved people of God. Even if it means the dying risk of the Easter story to show how much our Lord loves us. Your voice is as precious as everyone else. Keep bleating!

Easter Blessings
